

Harshit Tiwari

Product Manager

Product Manager with 8+ years of experience building and scaling SaaS platforms across digital publishing and edtech ecosystems. I specialize in translating complex workflows into scalable platform capabilities, delivering API integrations, and shipping features used across 200+ publisher websites. I work closely with engineering, UX, and business teams to define product requirements, prioritize roadmaps, and deliver data-driven platform improvements, including AI-assisted automation features.

AI Product Management | Prompt Engineering | ChatGPT | Claude | Gamma.ai | Lovable

WORK EXPERIENCE

Product Manager

MPS Limited

01/2023 - Present

Noida, India

- Own product strategy and roadmap for a Drupal-based **CMS platform** supporting **44 publishers and 200+ websites**, prioritizing initiatives using customer feedback, competitive analysis, and data-driven insights **improving publisher retention by 50%**.
- Lead discovery workshops** for new and migrating publishers, translating stakeholder and support insights into prioritized feature requirements reducing publisher onboarding/migration time and **increasing the CSAT to 90%**.
- Manage** the complete **product lifecycle** from **ideation to launch**, writing PRDs, defining acceptance criteria, overseeing UAT, coordinating releases, and driving adoption across platform initiatives.
- Identified and led an AI monetization opportunity end-to-end, **building an MCP-powered content access platform** enabling publishers to securely license journal content via API-key access and configurable per-query pricing **generating \$200,000 in new licensing revenue** and onboarding 8 publishers within 3 months.
- Led migration of 40+ publishers** from UA3 to GA4 and became **in-house subject-matter expert on Google Ad Manager, GA4, and GTM**, improving ad reporting accuracy and contributing to a **43% increase in publisher monetization performance**.
- Designed and shipped an AI-powered content taxonomy workflow, owning problem discovery, prompt design, testing, and rollout with engineering, **reducing manual content classification effort by 60%** and **cutting publisher content-processing time by 12 hours/week**.

Product Manager-2

Simplilearn Solutions Private Limited

05/2022 - 12/2022

Bengaluru, India

- Led product-led process improvements across course categories, contributing to a **10% revenue increase within 6 months**.
- Worked with marketing, pricing, legal, and operations teams to support **go-to-market strategy for new course launches**.
- Built** messaging frameworks and sales enablement assets to improve product positioning and conversion.
- Coordinated **cross-functional stakeholders** to ensure product launches met compliance, pricing and operational requirements.

WORK EXPERIENCE

Program Manager

Vedantu Innovations Pvt. Ltd

10/2021 - 04/2022

Bengaluru, India

- Designed a scheduling optimization framework that reduced class overlap by **13%** and cancellations by **19%**.
- **Built internal automation tools** using JavaScript to streamline communication workflows and reduce manual coordination.
- Developed a **teacher scheduling and utilization framework** improving operational efficiency for large-scale online classes.

Program Manager

Zolostays Property Solutions Pvt. Ltd

08/2019 - 10/2021

Bengaluru, India

- Led development of MyFirstXP, a platform and Android app connecting students and professionals with job opportunities, reaching **50k+ users** and enabling **800** successful placements.
- Defined product requirements and worked with engineering teams to deliver platform features and partner integrations.
- Built and managed a **nationwide vendor ecosystem of 70+ partners**, including onboarding, verification, and quality management workflows.
- Designed operational frameworks that scaled across **8 cities and 450+ properties**.
- Improved **NPS from -30 to +30 in 3 months** through product improvements and operational redesign.

Associate Software Engineer

Accenture Solutions Pvt. Ltd

09/2014 - 03/2017

Bengaluru, India

Project CalHEERS (California Healthcare Eligibility, Enrollment, and Retention System)

- Supported the **CalHEERS healthcare enrolment platform (serving 2 million users)** by resolving production issues via SQL and ServiceNow, **resolving 700+ tickets per month** within SLA.
- Developed front-end components using HTML, CSS and XML to improve user interface functionality.
- Coordinated with cross-functional engineering teams to troubleshoot and **resolve 20+ escalations** per month, **reducing average resolution time by 30%**.
